

**The Christian Church throughout the centuries has struggled with the reality that we are commanded by your Lord to GO! Our natural human inclination is to stay where we are with people who are our friends and possibly like us. Some of the last words of Jesus challenge us with the command to GO! When was the last time you went somewhere? (ha ha ha) With 'social distancing' and home quarantining, we are not supposed to be 'going' anywhere. However, the Church is not closed, we are deployed. COVID 19 has sent us out in ministry in new and profound ways that is changing how we serve God and our neighbors. I look forward to worshiping with you this Sunday at 10 am.**
