

Very truly I tell you, whoever believes in me will do the works I have been doing, and they will do even greater things than these, because I am going to the Father. (John 14.12)

Never . . .

**With the Trinity we are NEVER  
Abandoned, Powerless, or Unloved!**

Throughout our life we live within a power struggle always. Who is our boss at work? What does the teacher have us do for the next assignment? How will we guide our employees? What are the chores that our children have for the day? Who has power over us and who do we have power over? Race and privilege is another example of the very real power struggles. These are all perspectives from an earthly standard. Jesus reveals to us a completely different understanding of power. The One who has the power and authority became the servant of all. Jesus even stated that His followers will be able to do even great things than He did. With the Trinity, we are never powerless! I look forward to worshipping with you this Sunday.
